Evaluation of the trainee to be completed by the supervisor

(Translated by HOANG YEN)

Name of trainee: HOANG YEN

Period: 01/04/2016-15/07/2016

Name of organization:

LSIS UMR 7296, University Aix-Marseille

Address: IUT Aix-Marseille, 2 rue R. Follereau, City: Arles, Country: France.

Name supervisor: Romain Raffin

Phone: +33 674066509

Email: romain.raffin@univ-amu.fr

This evaluation will be used by the International Francophone Institute IFI, National University to evaluate the student's internship. It is suggested that the trainee should be aware of the content of this evaluation in working time with the training organization.

Motivation, interest at work:	Very good
Comments: ... Always assiduous to her work, Yen Hoang has always shown motivation.	
Sense of responsibility when performing assigned tasks	Good
Comments: Yen Hoang performed the required tasks without any problems. It might to communicate a little more about her self-advancement (outside of our weekly meetings), but also in documents throughout the project.	
Initiative as part of instructions received	Good
Comments: Some of the technologies used are new, so it is difficult for Constraints of the project. Yen Hoang modeled a single database, her proposals were accepted.	
Ability to adapt to technologies	Very good
Comments: Despite the use of advanced technologies, this student has demonstrated her autonomy in information retrieval, self-training and control of its working environment (version server, server And web client, database).	
Quality of work	Very good

Comments: The project is operational and documentation has been produced. The sources are commented..	
Ability to argue and giving the point	good
Comments: During the creation of the database, Yen Hoang was able to propose and choice.	
Ability to propose a valid solution to a problem	Very good
Comments: As the project is very innovative, it is sometimes difficult to know in advance if the chosen option is perennial. Yen Hoang proposed viable solutions that are retained in the final version of the project	
Ability of performing on time	Very good
Comments: There is no doubt about assiduity and commitment to work, every work was given in a week, and was carried out the following week, according to schedule.	
Collaboration	Average
Comments: Here again the difficulty of communication could have been exceeded, orally or with the current digital means.	

Global trainee evaluation: Superior

Strong point:

Motivation and amount of work, technical expertise.

Weak point:

Oral communication, do not hesitate to interact with colleagues or supervisors.

Based on these results, I agree to allow Yen Hoang to defend thesis.

Day : 6 October 2016.
